-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claim 20 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 05 December 2005.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-16 and 18-19 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 56057542.

JP '542 discloses vehicle having:

a driving chain or track system 2 and a cable assist pulling system having a cable winch

WD, a method for controlling the cable winch comprising the steps of:

detecting a speed of the driving chain (abstract lines 4-5);

detecting a speed of the cable (abstract line 3);

comparing the detected speed of the driving chain and the detected speed of the cable (abstract lines 5);

determining a desired value for the speed of the cable and controlling the cable winch to attain the desired value for the speed of the cable (abstract lines 26). The recitation in the preamble of

claim 1 that the vehicle is a snow-trail grooming vehicle, relates only to a possible or intended use of the device being claimed, but does not further structurally limit the device.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP 56057542 in view of Rechenmacher et al. (US 6,585,232 B2).

Rechenmacher teaches the step of determining an angle of slope between a traveling direction of the snow-trail grooming vehicle and the horizontal, and a direction of the speed of the cable relative to the traveling direction, for determining the desired value for the speed of the cable (col. 2 line 62 – col. 3 line 26).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan H. Langdon whose telephone number is (571)272-6948. The examiner can normally be reached on M-F 8:30-5:00.
